

Artist: Elaine Lloyd

Happily working out of East Beach Studios in Worthing, Elaine trained in design at the Glasgow School of Art. Her work is textural and colourful and invites close inspection and touching by adults and children alike.

Influenced by Brazilian born artist Edmil Fernandes, WAVES has a natural finish which to many seems almost edible. Other pieces use mixed media and metallic painting techniques to add richness and interest. Most works have a story attached to them based on fables and nature which she loves to impart.

Pieces often lend themselves to be framed and 'hung horizontally' as furniture tops to be viewed closely from a different perspective.
